## DESCRIPTION

This cava was made with grapes grown on calcareous soils in the Baix Penedès region – Macabeu from the La Marcera vineyard and Xarel·lo from the Cuquet vineyard. The grapes were hand-harvested into small boxes during the month of September. To obtain the must, the grapes were pressed slowly at low pressure on the day of the harvest.

In 2004, the summer was very dry and the rest of the year was rainy, resulting in a complex vintage. The prise de mousse and bottle-ageing process began in January 2005. Recently disgorged. No added sugar.
